

Avalon is a SDVOSB *robotic manufacturer precision machined components* with a broad range of CNC capabilities. Cutting edge machines and full automation results in exceptional quality and low cost. Avalon is an AS9100 certified go-to manufacturer in aerospace and defense.

CORE CAPABILITIES

PRODUCTION

High Volume
Plastics & Metals

CNC MILLING

Precision
3, 4, 5-Axis Milling

CNC TURNING

Multi-Axis
Live Tooling

OTHER

Boring, Broaching,
Drilling, Grinding

POST PROCESS

Paint, Plate, Polish,
Heat Treat, Mark

ASSEMBLY

Kitting and Assembly
Services

WHY AVALON?

- Full robotic automation for competitive pricing
- One stop shop: range of services & capabilities
- Exceptional quality with Siemens controllers
- Specializing in high quantity, serial production

INDUSTRIES SERVED

- Department of Defense
- Aerospace & Space
- Automotive
- Industrial

CERTIFICATIONS

- AS9100 / ISO9001
- Small Business
- Service-Disabled
Veteran-Owned Small
Business (SDVOSB)
- ITAR registered; JCP
- CMMC - SPRS registered

NAICS

- Machine Shops:
332700, 332710,
332721, 332722
- Vehicle Parts:
333610, 336330
- Aerospace Parts:
336411, 336412
- Fabrication: 332999
